**Arrangement of Materials:** The World Churches Vertical File is arranged in numeric order based on the Dewey classification numbers (the 900's) assigned to books about world history and geography.

For example, just as the Dewey call number for books about Europe are in the 940-949 range, the vertical file folder for Europe are housed together within the 940-949 range. The numbering scheme used world churches vertical files corresponds to the Dewey number for books about that country: since 941 is the Dewey number for the British Isles, 41000 is used for the vertical file about the British Isles). The 9- prefix is assumed rather than repeated for every entry.

Each numerical entry in this finding aid corresponds to a discrete folder or folders within the vertical file. The folders are labelled with the country code and name and are filed in numerical order.
