About this collection

Title: Congregational Vertical File

Creator: Center for Restoration Studies

Identifier/Call Number: REST--VF--Cong

Physical Description: Four four-drawer filing cabinets

Dates (Inclusive): 1850s-2022

Dates (Bulk): 1950-2010

Location: Center for Restoration Studies

Language of Materials: English

Scope and Content Note: This file set preserves information from and about 1,258 congregations or cities or counties in which a congregation is (or was) located in the United States. Nearly all are Churches of Christ, but some are Christian Churches; in a few cases other congregations are included where their history intersects the Restoration Movement. The file set includes clippings, bulletins, church directories, articles by or about the subjects, photographs, flyers or other ephemera and other information.

ACU Library staff began this set of files in the 1980s. It complements four similar sets of vertical files, all housed as part of the collections of Center for Restoration Studies: Biographical Files, World Churches Files, Organizational Files, and Subject Files. This file set contains information about congregations located in the United States. For information about congregations in other countries, see the World Churches Vertical File.

In 2016-2017 arrangement and order was improved by removing and cataloging many published tracts and pamphlets. Some non-Stone-Campbell-related files were weeded, many files were refoldered, and the entire set was relabeled and an inventory created.

Using this collection

Processing Status: Processed

Conditions Governing Access: Materials are housed in Callie Faye Milliken Special Collections, Brown Library, Abilene Christian University in Abilene, Texas and are non-circulating. Access is available during normal business hours; prior appointments are preferred.

Conditions Governing Use: Permission to publish, quote or reproduce items from this collection must be secured from the repository and the copyright holder.

Preferred citation: [identification of item], [folder name], Congregational Vertical File. Center for Restoration Studies. Milliken Special Collections, Brown Library. Abilene Christian University, Abilene, TX.

Copyright notice: Unless transferred in writing to Abilene Christian University, copyright is retained by the authors of these materials, or their descendants, as stipulated by United States Copyright Law (Title 17 US Code). Researchers are responsible for using these materials in conformance with copyright law.

Arrangement of Materials: The Congregational Vertical File is arranged in alphabetical order by state, then by city (or county in some cases) within the state, and then by congregation within the city. Where multiple congregations are located in the same city, they are listed in alphabetical order by the name of the congregation. Since nearly all of the congregations listed herein are Churches of Christ, that part of the congregation's name has been omitted. However, if the congregation is a Christian Church, this has been noted without exception insofar as the information in the folder supports that distinction.

Each entry in this finding aid corresponds to a discrete folder (or folders where indicated) within the vertical file. The folders are labelled with the subject's name and the generic call number (REST—VF—Cong)
