January 3. 1913.

Mr. M. L. Malphurs,
LaCrosse, Fla.

Dear Sir:-

In reference to sawing up some timber for us for the College building, we would like to get an idea from you as to what your rates are for hauling and sawing up a man's timber. The mill can be put in such a location as to make the haul not over a quarter of a mile at any one place, I believe, so you can see there would not be much hauling. The timber is nice stock and the ground over which it will have to be hauled is open woods, as a rule.

Do you saw for part of the lumber or for cash? Please state your proposition clearly so that we can see what we are doing in either case. If we engage you to do the work we will likely want to begin within the next sixty or ninety days, but before making a trade with you would like to know just what is expected. If convenient it might be well for you to come down here and go over this matter with us sometime soon.

Yours very truly,
