Book Review: DIGGERSAURS MISSION TO MARS

Diggersaurs are bigger and hungrier than dinosaurs. Readers will join a Diggersaur on a journey to Mars. The Martians want the Diggersaur to help them build a space station. Can the Diggersaurs build better than the dinosaurs? Read and find out.

The text is simple, and the illustrations are bold and leap off of the page. This is sure to be a delightful story for dinosaur fans.
