**Book Review:**  
**HIDDEN CREATURE**  
**FEATURES**

In this beautiful book, readers will discover some special physical characteristics of a variety of animals. Each animal is presented with the first line and a half of a rhyming couplet. The surprising physical characteristic is revealed on the next page with the end of the couplet. On this page, there is also some explanation of the interesting characteristic printed within a brightly colored circle. Examples of these amazing animals are the male platypus and his venomous spurs on his hind feet, and the pangolin that has a 12-inch tongue. Elementary age readers will love this book. Well done!
