Book Review: SO YOU WANT TO BE A FROG

A frog welcomes boys and girls to Frog Club. In this book, a checklist and ten rules are given to see if a child qualifies to be a frog. Information about frogs is given in a fun and clever way that will excite children about what they learn. At the bottom of most pages there are instructions to try some of the things that make a frog a frog. For example, they can croak loudly or stay still for a long time or go a long time without blinking.

This book about frogs makes learning fun, and children will even giggle at some of the ways it is presented. The illustrations are comical while others are more true to life. This is a great teaching tool about frogs.
