## Book Review: TECHNOLOGY: A LOOK AT THEN AND NOW

Another entry in the Read for a Better World series, Percy Leed's book, *TECHNOLOGY: A LOOK AT THEN AND NOW*, uses black-and-white photographs of technology from the past paired with color photographs of modern technology to compare and contrast the uses and development of technology. Like other books in this series, this book includes suggestions for educators, discussion questions, and references for further reading. This exploration-provoking book is recommended for public and elementary school libraries.
