Hi, I'm Landon Saunders. This is Heartbeat. Have you ever watched one of those old iron pressure cookers work, the food is placed carefully inside and on goes the heat. And the safety valve regulates the pressure which makes it safe. It reminds me of some people I know they really turn out the goods when they're under pressure. But sometimes we don't have the safety valve and so we blow up because pressures pretty touchy. Now some people don't understand pressure so when they come
